Education

HAMK University of Applied Sciences

Bachelor of Computer Applications

Aug. 2023 – Dec 2026

Hameenlinna , Finland

Amity Global Institute

Diploma in Computing

Nov. 2022 – Jun 2023

Orchard Rd, Singapore

Relevant Coursework

- Web Programming
- JavaScript
- Web Framework Project
- Database Management
- Web Accessibility
- Software Testing
- Communication in Customer Projects

Experience

(Currently seeking first industry internship. Experience so far from projects and team work.)

HAMK University – Group Projects

Helsinki, Finland

Frontend Developer (student project work)

2023 – Present

- Participated in *Wander Whimsy Travel* team project: built components for a website helping travelers find local hidden gems.
- Contributed to *Lost and Found* app for HAMK: implemented UI parts and frontend logic.

Junction 2024 Hackathon – Grandlund-Kone Challenge

Helsinki, Finland

Frontend Developer / AI Integration

2024

- Collaborated in a 3-person team to develop an AI-powered mobile web application that streamlined building equipment inventory, reducing manual labor and minimizing data inconsistencies.
- Integrated Firebase for real-time data synchronization and cloud storage of survey images, enabling efficient uploads and centralized access across devices.
- Developed AI functionality to analyze uploaded images, extracting metadata such as equipment type, model, manufacturer, and condition, facilitating proactive maintenance and reducing operational costs.

Projects

Assembly: Endgame! | *React, JavaScript (ES6), HTML, CSS, Vite*

July 2025

- Built a word-guessing game to practice frontend development.
- Implemented component-based UI in **React** with game logic in **JavaScript (ES6)**.
- Styled using **HTML/CSS** and used **Vite** for a fast development environment.
- GitHub Repository | Live Demo

Chef Claude | *React, JavaScript (ES6+), HTML, CSS, Vite, Google Gemini API*

June 2025

- Created an AI-powered recipe assistant to suggest dishes from user-input ingredients.
- Integrated **Google Gemini API** for dynamic recipe suggestions.
- Built with **React** and **JavaScript**, deployed using **Vite**.
- GitHub Repository

Tenzies Game | *React, JavaScript (ES6+), HTML, CSS, Vite*

June 2025

- Developed a dice game in **React** to improve state management skills.
- Implemented core logic in **JavaScript (ES6)** and styled with **HTML/CSS**.
- GitHub Repository | Live Demo

Technical Skills

Frontend: HTML, CSS, JavaScript (ES6+), React, Vite

Backend/Tools: Firebase, MongoDB, SQL, Git, Github, Netlify, Vercel

Design/Collaboration: Figma, Canva, Vs Code

Additional Information

Motivated to learn by building real projects.

Ready to contribute as an intern and improve through hands-on experience.

Available for internship starting January 2025.

Personal note: “Learn by building, growth by shipping.”
